3. Connect to X2 Camera Wifi signal: **INTOVA X2.** Password: 0123456789
4. Open app & control camera.

Precautions
» Before using the camera, read the precautions to ensure correct use, the best performance and longer lifespan.
» Do not leave or store the camera in direct sunlight, especially the lens, as prolonged exposure to direct sunlight can damage the image sensor.
» Store in a cool, dry environment.
» During storage, note that battery must be recharged periodically to maintain operating ability. Allowing total discharge may ruin the battery.
» Clean with a soft dry cloth and take special care around lens.
» Format Memory Card prior to first use.
» Do not use a memory card that contains files from a different device as this may cause camera to malfunction.
FCC STATEMENT:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
» Reorient or relocate the receiving antenna.
» Increase the separation between the equipment and receiver.
» Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
» Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
